Product Specifications

P533884

AIR FILTER, SAFETY RADIALSEAL

Why Choose Donaldson Safety Filters?

Safety filters have two functions: to act as a backup to the primary filter and to protect the engine during primary filter servicing.

• Serve as a backup filter in case of primary filter damage or improper installation.

• Prevent contaminants from entering the clean side of the air intake system during primary filter servicing.

• Designed to plug rapidly if contamination finds its way past the primary filter, alerting operators about an issue.

• Recommend that safety filters are replaced with every third primary filter change unless there has been a failure of the primary filter.

Attributes

Outer Diameter	230.9 mm (9.09 inch)
Inner Diameter	176.3 mm (6.94 inch)
Length	451.2 mm (17.76 inch)
Efficiency Test Std	ISO 5011
Primary Application	CATERPILLAR 1063973
Type	Safety
Style	Radialseal

Brand	RadialSeal™
Media Type	Safety

Packaged Dimensions

Packaged Length	0.235 m (9.40 inch)
Packaged Width	0.238 m (9.50 inch)
Packaged Height	0.465 m (18.60 inch)
Packaged Weight	2.025 kg (4.46 lb)
Packaged Volume	0.027 m3 (0.96 ft3)

Other Information

NMFC Code	069100-10
UPC Code	742330039540

The information contained herein is general in nature and may not reflect actual information regarding the part at time of shipment. Parts may originate in more than one country – the actual country of origin and HS Code will be reflected on the Commercial Invoice(s) that accompanies the goods.
